Strategies

1. Identify any barriers in implementing the plan (i.e. data collection, data tracking, funding, infrastructure, etc.)

Data used in most plans were specific to agency clientele, not the county population. This makes the comparison and compilation of data slightly difficult.

2. Identify any successes/how implementing this plan has worked to strengthen the council and county collaboration.

This process assists council members in identifying shared priorities and also helps identify the strategies of council members to help reduce duplication of services.

Report on Indicator Data (Provide data for each outcome indicator listed on the Shared Plan. List only ONE outcome per page. This page can be duplicated as needed).

Shared Outcome: Reduce child abuse and neglect among children ages 0-5.
