

Union County Family and Children First Council Shared Plan for SFYs 12-16

Shared Plan Update for SFY 16

Union Current FCFC Initiatives:

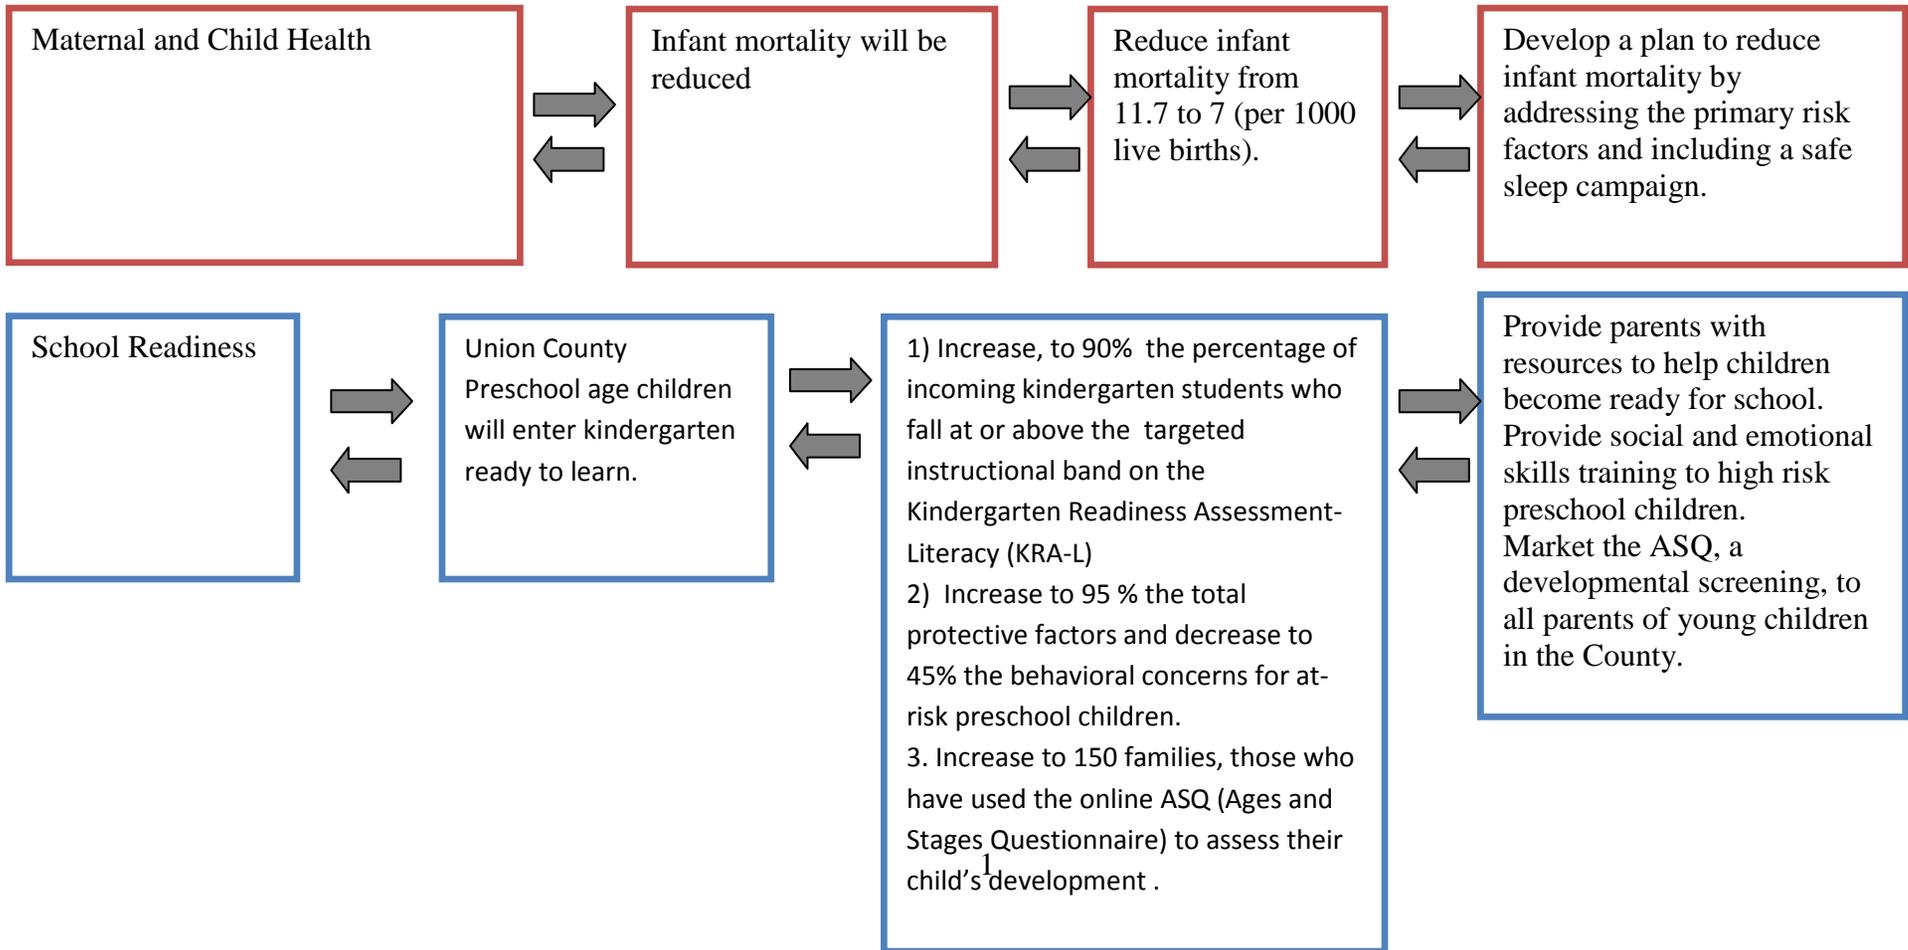

Maternal and Child Health and School Readiness through the Family Health Collaborative; Youth Substance Abuse addressed through the Union County Drug Free Youth Coalition; Increased protective factors for preschool children addressed through the Prevention Advisory Committee and the Ohio Children’s Trust Fund; Professional and Community Awareness of Resources through the Council for Union County Families in partnership with the United Way of Union County and the Community Services Organization.

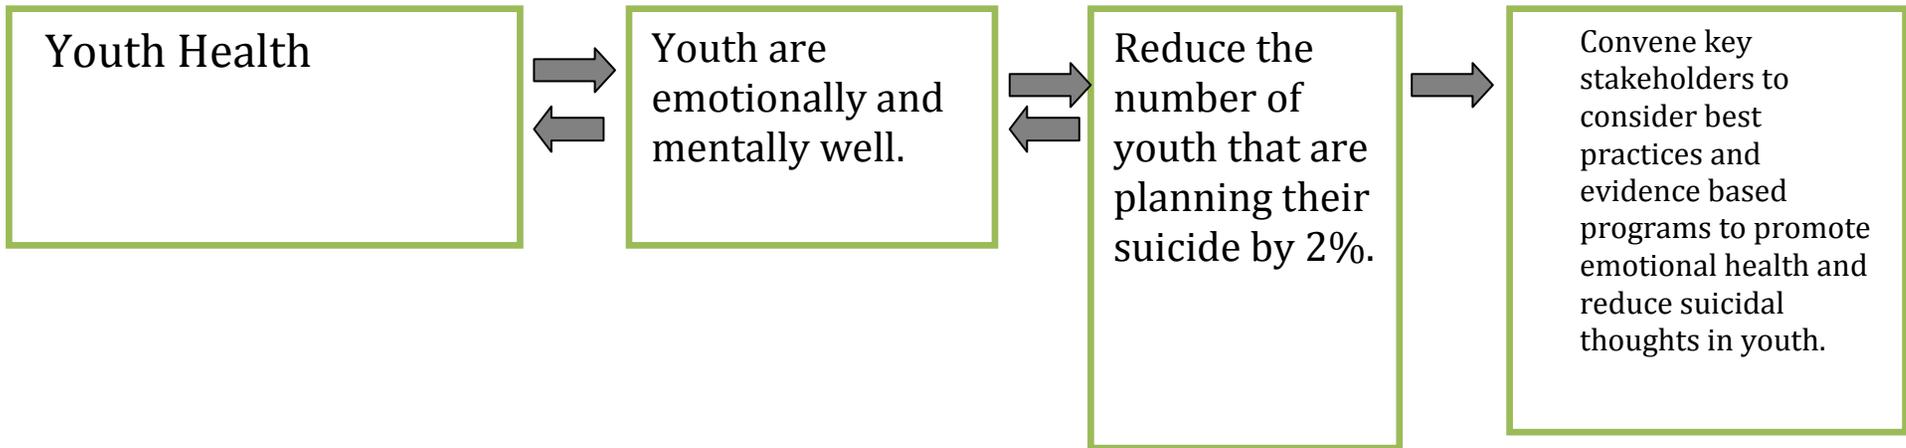

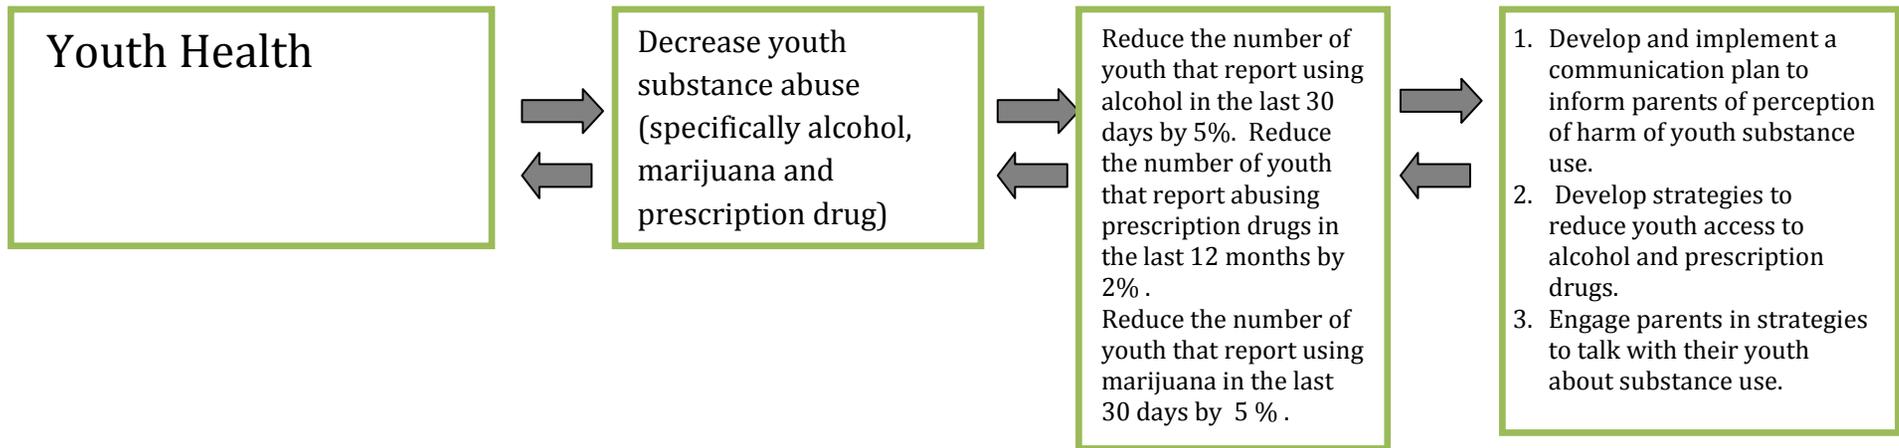

Shared Priorities

Shared Outcomes

Shared Indicators

Shared Strategies

Were there any modifications from last year's plan? Yes No

If yes, please identify the types of changes made by checking the appropriate boxes below:

Priorities- We removed the No Wrong Door Priority and all the following related to it. No Wrong Door continues in Union County through the Community Services Association.

Outcomes

Indicators

Strategies

1. Identify any barriers in implementing the plan (i.e. data collection, data tracking, funding, infrastructure, etc.)
Data collection is always challenging.

2. Identify any successes/how implementing this plan has worked to strengthen the council and county collaboration.

This plan has been aligned with the Community Health Improvement Plan and therefore is updated on a quarterly basis and shared with others outside of the Council membership.

Report on Indicator Data (Provide data for each outcome indicator listed on the Shared Plan. List only ONE outcome per page. This page can be duplicated as needed).

Shared Outcome: Infant mortality will be reduced.

Indicator(s):	Baseline Data	Current Year Data	Direction of Change (+, -, NC)
Reduce infant mortality from 11.7 to 7 (per 1000 live births).	Data: 11.7 deaths per 1000 live births Year of Data: 2008	Data: 6 deaths per 1000 live births Year of Data: 2014	- Decrease

3. List the data source(s) for the indicator(s):

ODH Data Warehouse

4. Identify any key findings (explanation of data findings; FCFC actions taken in response to key findings, etc.):

While this number is up from last year, it is still a very low number and based upon the population of Marysville, it can move up significantly with one child death.

Shared Outcome: Union County Preschool age children will enter kindergarten ready to learn.

Indicator(s):	Baseline Data	Current Year Data	Direction of Change (+, -, NC)
Increase, to 90%, the percentage of incoming kindergarten students who fall at or above the targeted instructional band on the Kindergarten Readiness Assessment- Literacy (KRA-L)	Data: 80 % of students rated within the targeted level or higher. Year of Data: 2007	Data: Fairbanks- 84% Marysville- 85% North Union- 89% Year of Data: Fall 2011	+ Increase
Increase to 95 % the total protective factors and decrease to 45% the behavioral concerns for at-risk preschool children.	Data: 91% of students had an increase in protective factors and 55% had behavioral concerns as assessed on the DECA screening tool. Year of Data: SFY2010	Data: Year of Data:	Previous source of data is no longer working with preschool children. Unable to get data from Head Start.
Increase to 150 families, those who have used the online ASQ (Ages and Stages Questionnaire) to assess their child’s development .	Data: 69 families completed the ASQ ins 2012 Year of Data: 2012	Data: 66 families Year of Data: 2014	- Decrease

List the data source(s) for the indicator(s):

KRA-L (Kindergarten Literacy) Assessment, DECA social and emotional assessment ASQ analytics

Identify any key findings (explanation of data findings; FCFC actions taken in response to key findings, etc.):

We will need to modify the first indicator due to the State changing the Kindergarten Readiness Assessment.

Shared Outcome: Decrease youth substance abuse (specifically alcohol, marijuana and prescription drug).

Indicator(s):	Baseline Data	Current Year Data	Direction of Change (+, -, NC)
Reduce the number of youth that report using alcohol in the last 30 days by 5%.	Data: 20.4% of students report using alcohol during the past 30 days. Year of Data: 2012	Data: 17.3% of 1558 students reported using alcohol in the last 30 days Year of Data: 2014	- Decrease
Reduce the number of youth that report abusing prescription drugs in the last 12 months by 2% . This is now measured within the last 30 days.	Data: 8.7% (191) students surveyed reported using prescription medication to get high over the past 12 months. Year of Data: 2010		
Reduce the number of youth that report using marijuana in the last 30 days by 5 % .	Data: 8.8 % of students reported using marijuana during the past 30 days. Year of Data: 2012	Data: 8.8% of students reported using marijuana during the past 30 days. Year of Data: 2014	No change

List the data source(s) for the indicator(s): Youth Risk Behavior Survey NOTE: The 2010 survey included 7th and 9th-12th grade students and was previously our baseline data. Since 2012, we only survey 7, 9, and 11th grades.

Shared Outcome: Youth are emotionally and mentally well.

Indicator(s):	Baseline Data	Current Year Data	Direction of Change (+, -, NC)
Reduce the number of youth that are planning their suicide by 2%.	Data: 10.5% of students report planning their suicide. Year of Data: 2012	Data: 12% of students made a plan Year of Data: 2014	+ Increase

List the data source(s) for the indicator(s):
Youth Risk Behavior Survey

Identify any key findings (explanation of data findings; FCFC actions taken in response to key findings, etc.):
Union County has revived the Here 4 Hope Suicide Prevention group.
